

Hi,

It has come to my attention that the FCC may expand the service LPFM stations that may take priority over FM translators. I would be disappointed if this happened. One station that I enjoy listening to and is broadcast by FM translators is K-LOVE.

K-LOVE and their broadcasting is an encouragement to me, my friends, and co-workers. It encourages us in our moral values, to love our fellow man, and to be good citizens in our country. If K-LOVE was no longer broadcast in our area we would not have the encouragement by radio that K-LOVE gives.

Please continue to allow K-LOVE to broadcast by FM translators so that our community can continue to hear positive, encouraging radio.  
Thank you for your time and consideration in regards to this issue.
